

# Le Trung Hieu

.NET Developer

Final-year IT student majoring in Software Engineering, with a solid foundation in web development and practical experience from real-world projects. Motivated to apply and expand backend development skills while contributing to a dynamic and collaborative team environment.

## EDUCATION

**HCMC University of Industry and Trade**

Major: Software Engineering ( Sep 2022 - Jan 2026 )

GPA: 3.53/4

## WORK EXPERIENCE

### FPT Software Ho Chi Minh

**Back-end .NET Intern Developer** ( Aug 2025 - Nov 2025 )

- Contributed to the development of a timesheet and billing management platform handling MSA, SOW, PO, BR, and invoice processes.
- Developed and maintained backend services using ASP.NET Core API following Clean Architecture with PostgreSQL database.
- Collaborated with the QA and development teams to investigate and fix backend issues across multiple modules.
- Implemented a user story for exporting resource vendor data, ensuring correct data mapping and optimized query performance.
- Worked in an Agile Scrum team: participated in daily meetings, sprint planning, and code reviews.

## PROJECTS

**Food Connect System** ( Aug 2025 - Nov 2025 )

- **Description:** A food marketplace enabling homemade sellers to create stores, manage products/orders, while customers browse, order, and pay online. Features real-time updates, wallet system, and multi-role access control.
- **Teamsize:** 2
- **Role:** Fullstack
- **Main responsibilities:**
  - Architected multi-vendor system using ASP.NET Core 8 Web API with Clean Architecture.

## SKILLS

**Programming Languages:** C#, Javascript.

**Backend Framework:** ASP.NET Core Web API, ASP.NET Core MVC, .NET Framework, Winforms, ASP.NET MVC 4.

**Web/API Development:** RESTful API, JWT Authentication, SignalR.

**Database:** SQL Server, PostgreSQL, MongoDB, Redis.

**Frontend:** ReactJS, Bootstrap.

**Tools & Others:** Github, Postman.

**DevOps & Cloud:** Docker, GitHub Actions (CI/CD), AWS (EC2, S3).

**English:** TOEIC (LC & RC) 860/990, TOEIC (S&W) 270/400.

**Soft skills:** Problem-solving and self-learning abilities.

## AWARD

Semester 2, 2023 2024

Academic Merit Scholarship (Good Level)

- Built seller onboarding flow (registration, verification, store setup) and seller dashboard.
- Developed core features:
  - Multi-role authentication & authorization (Admin, Seller, Customer)
  - Product, category, store, and order management per seller
  - Shopping cart, checkout with discounts, marketplace order routing
  - Wallet system with balance tracking and transaction history
  - Integrated VNPay payment simulation and SignalR for real-time order updates.
- Applied backend best practices: custom middleware, global exception handling, FluentValidation, AutoMapper, Redis caching.
- Built CI/CD pipeline (GitHub Actions), containerized with Docker, deployed on AWS EC2.
- Developed responsive ReactJS web app and supported Flutter mobile integration.
- **Tech Stack:** ASP.NET Core 8, Clean Architecture, EF Core, PostgreSQL, Redis, SignalR | ReactJS, Flutter | Docker, GitHub Actions, AWS EC2
- **Github:**
  - Backend: <https://github.com/TrungHieu2610/foodconnect-backend-api>
  - Frontend: <https://github.com/TrungHieu2610/foodconnect-frontend-web>
  - Mobile: <https://github.com/TrungHieu2610/foodconnect-mobile-app>
- **Deploy:**
  - API: <https://api-dev.foodconnect.food>
  - Web: <https://www.foodconnect.food>

Semester 1, 2024–2025

Academic Merit Scholarship

(Excellent Level)

Semester 2, 2024–2025

Academic Merit Scholarship (Good

Level)

### **Milk Tea Shop Website** ( Nov 2024 - Dec 2024 )

- **Description:** A web-based milk tea ordering system built with ASP.NET MVC that allows customers to browse products, add items to their cart, place orders, make payments, and track their order status.
- **Teamsize:** 4
- **Role:** Back-end Developer
- **Main responsibilities:**
  - Implemented shopping cart features: add/remove items, update quantity, and view cart.
  - Built the order checkout process and order tracking functionality.
  - Developed admin modules: manage products and orders (CRUD operations, order status update).
  - Integrated SQL Server with Entity Framework for data operations.
- **Tech Stack:** ASP.NET MVC 4, EntityFramework, SQL Server, Bootstrap 5.
- **Github:** <https://github.com/TrungHieu2610/MilkTeaShopWebsite>
- **Deploy:** <https://milkteashop.trunghiu.io.vn>
